Industrial ecosystem

8/10 REASONS TO INVEST

Several industries have a great weight in the Castilla-La Mancha's economy, with major global manufacturers having been established for decades. Many of them belong to the **Industrial Technology Center of Castilla-La Mancha (ITECAM)**, which fosters competitiveness and R&D, and leads the **metal cluster** of Castilla-La Mancha.

The **favorable business climate** and the low level of labor conflicts have led more and more companies to set up in our region.

Green energy

9/10 REASONS TO INVEST

Castilla-La Mancha has **9,721 MW of installed renewable power, 14% of the national total**: 4,705 MW of wind energy and 3,904 MW of photovoltaic energy.

The region has a **surplus of green energy production**, covering **100% of its needs and exporting green energy** to the rest of the country.

We are also **leading the green hydrogen revolution**, with the largest plant for industrial use in Europe, developed by Iberdrola and Fertiberia, as well as the commitment of international companies, such as Cummins, to manufacture electrolyzers.
